Main Number 800-397-9000

Sherman Hospital opened December 15, 2009. The hospital is a new, state-of-the-art hospital at the corner of **Big Timber and Randall Roads in Elgin**. Everything about the hospital is designed to make patients and their families as comfortable as possible. Less waiting and in-room check-in quickly deliver the care each patient requires.

The new hospital features 255 spacious, private rooms designed around beautiful views of a lake and forest preserve. Because environment contributes to the healing process, the hospital features spaces that are open, airy, bright and comfortable.

**From I90, exit Randall Rd and turn south.**

Sherman Hospital main entrance leads directly to parking for entrance to main lobby.

Proceed from main lobby to lake level (down one flight), past cafeteria and wall of windows overlooking the geothermal lake.

Pass through double doors to meeting rooms (beyond cafeteria).
