

March 8-9, 2012
Hilton Lisle/Naperville in Lisle, IL

Continuing the Care: Infection Prevention in the Long-Term Care Setting

Save the Date! This spring brings a two day immersion into infection prevention in the long term care setting. Registration will be open in the coming weeks.

Discounted overnight stays are available at the Hilton. To register, you can call the hotel and mention the group code: CAPI. You can also reserve online by going to www.hiltonlisenaperville.com, clicking the reservations tab and typing CAPI under the group line on the right hand side. The cost for a one night stay with the discount is \$99.

Objectives

At the completion of the program, attendees will be able to:

- ❖ Develop a prioritized risk assessment for a long term care setting
- ❖ State the various components of transmission-based isolation precautions, as published in CDC's Guideline for Isolation in Healthcare Facilities
- ❖ Prepare a facility-wide emergency preparedness and response plan
- ❖ Describe the steps used in an effective outbreak investigation
- ❖ Understand the major transmission mode of common LTC center pathogens and which methods to prevent transmission among residents are most likely to succeed
- ❖ Understand surveillance methods for facility acquired infection used in long term care settings
- ❖ Review Regulatory language for infection control that applies to LTC

Speakers will include

Carolyn Jackson, RN, MA, CIC,
Secretary of APIC and 2011 APIC Webinar presenter of "Challenges of Infection Prevention in Long term Care"

Steven J. Schweon, RN, MPH, MSN, CIC, HEM,
Chair of APIC's Long Term Care Section

Judy Conway, RN, BS, CIC,
Illinois Department of Public Health

And More!
